EXPERIENCE

Frontend Developer Dec 2025 - Mar 2026
AI Tech Spine *Lahore, Pakistan*

- Developed responsive and interactive front-end interfaces using React, JavaScript, HTML, CSS, and Tailwind CSS, ensuring optimized performance and seamless user experience across devices.
- Contributed to projects like FinanceFlow (FinTech platform) and EduLearn (E-learning system), integrating REST APIs and building reusable UI components to enhance scalability and maintainability.

Web Developer, Intern June 2025 - Aug 2025
COMSATS Software House *Sahiwal, Pakistan*

- **Fitness Trainer:** Developed a Website to give exercise tips/instructions.

EDUCATION

BS Computer Science, COMSATS University Islamabad 2024 - 2027

PROJECTS

FinanceFlow

- Developed a comprehensive FinTech platform featuring real-time financial analytics, interactive dashboards, and AI-driven insights using React and modern web technologies, enabling enterprise users to monitor transactions and make data-driven decisions efficiently.

Ismail Welfare Trust

- Designed and developed a responsive and user-friendly website for a non-profit organization using HTML, CSS, JavaScript, and React, enabling efficient presentation of services, donation management, and community engagement through a clean and accessible interface.

Bandesha Law Associates

- Developed a professional and responsive website for a legal services firm using HTML, CSS, JavaScript, and React, showcasing legal services, case expertise, and client engagement features with a clean, modern interface.

LEADESHIP AND ACHIEVEMENTS

- **Notion Campus Leader** – Organized workshops and promoted productivity tools to improve collaboration.
- **AWS Student Builder Group Leader** – Led cloud initiatives and guided students in hands-on AWS projects.
- **Postman Student Expert** – Promoted API best practices and conducted sessions on REST APIs and testing.
- **Neo4j Certified Professional** – Certified in graph database design and query optimization.
- **Pakistan's First Official MLH Organizer** – Organized hackathons, driving participation in tech communities.
- **Google Arcade Champion** – Mentored participants in completing cloud challenges and milestones.
- **Guinness World Record Official Attempt** – Participated in a large-scale global record attempt.
